COURSE CODE: T176\_1

## Personal development planning for engineering

<https://www.open.edu/openlearn/science-maths-technology/personal-development-planning-engineering/content-section-0>

### Course summary

This free course, Personal development planning for engineering, has been written in keeping with the requirements of UK-SPEC and the professional engineering institutions (e.g. ImechE, IET etc). It will provide you with a range of relevant information and guidance in critically assessing and scrutinising your career development aspirations.

### Learning outcomes

By completing this course, the learner should be able to:

- provide evidence of critical assessment of personal career development
- provide evidence of a career development plan linked to the requirements of professional engineering institutions, with a clear strategy for achieving personal goals
- demonstrate an awareness of factors that might help or hinder personal development towards becoming a professional engineer

### Completed study

The learner has completed the following:

#### Section 1

Career development planning

#### Section 2

Evaluating your abilities ('Where am I now?')

#### Section 3

Identifying your career goals ('Where do I want to go and how will I get there?')

#### Section 4

Conclusion
